

DATA (ETHERNET)

With the same high-quality, high-availability, and low latency offered on its network video service, The Switch offers a scalable Ethernet product from 20 to 4 Gbps, allowing for media applications including: telephone and/or intercom communications, Public Internet Access and rich File-Transfer-Protocol (FTP) applications.

Now available via The Switch's proprietary customer control software SwitchIT, for customers with Five Nines capability, on-demand Ethernet allows for:

- 1+1 Redundancy to/from all Sports Venues and Customer Locations Equipped with Five Nines Equipment
- Ability to Order Occasional Use Point-to-Point Ethernet on a Per-Minute Basis to/from Accessible Locations

Technical Attributes:

- E-line point-to-point connectivity
- E-LAN point-to-multipoint topologies, mesh or "star," for any number of sites
- 802.1q - VLANs
- 802.1D-1998/2004 protocols
- Jumbo frames
- Port speeds up to 10Gbps

Increments of Service Offered:

Standard	20 Mbps	50 Mbps	100 Mbps	200 Mbps	300 Mbps	400 Mbps	500 Mbps	600 Mbps	700 Mbps	800 Mbps	2000 Mbps
Special Event With Video	500 Mbps	650 Mbps	1 Gbps	2 Gbps	4 Gbps
