

## Mobile Unit Engineer

**Title:** Mobile Unit Engineer

**Reports to:** Director of Venue Relations & Field Engineering

**Location:** Pittsburgh, PA or Remote

Beers Enterprises, LLC (“The Switch”) founded in 1991, is the largest privately held video solutions service provider in North America. The Switch is recognized as the industry leading pioneer of video solution services through our innovative fiber optic network and currently provides advanced video switching and local fiber circuit services, scalable Ethernet, and *Home Runs* remote production via its *Five Nines Service* across the United States, United Kingdom, and Canada. The Switch was awarded a U.S. system patent for customer-controlled video data content delivery, the 2013 New Bay Media Product Innovation Award for Switch-IT, and the 2012 Broadcast Engineering Excellence Award for Network Automation. The Switch has experienced explosive growth and offers a fast paced and dynamic work environment with a focus on exceeding both individual and team expectations. Our customers demand “Unparalleled Quality” and *FiveNines* reliability from our network and it is our corporate responsibility to satisfy their expectations by continuing our expansion in services and network reach, while remaining cost effective. The Switch has facilities at every NHL, NBA, MLB, MLS, and NFL venue, and each one is unique. New contracts with major league and other sports are being added and proposed as the company grows. The Mobile Unit Engineer will be responsible for driving, maintaining, setting up and operating The Switch’s Mobile Unit Vehicles in support of PGA Golf and other sporting and special events.

The Switch is seeking an experienced Mobile Unit Engineer to contribute to the growth and success of our Company. The Mobile Unit Engineer will report to the Director of Venue Relations & Field Engineering, and will be responsible for, but not limited to ongoing maintenance and integration at venues, nodes and other locations based upon need, as well as driving, operating, and maintaining the truck and trailer which comprise the Mobile Unit.

### Principal Responsibilities:

- Extended and extensive travel to establish, maintain and augment the existing network architecture and new equipment integration.
- Interface with all site contacts on an ongoing basis and as needed to maintain a productive working relationship. Serve as the primary customer interface for all video and data services originating at venues.
- Assist Director of Venue Relations & Field Engineering in all documentation and depiction of all relevant technical facilities in each site to facilitate upgrades and improvements, as well as having a complete understanding of the current and potential future transmission methods.
- Develop an understanding of each site’s telecommunications infrastructure.
- Work within timelines for projects, based upon event schedules and multiple locations.
- Work at The Switch’s city nodes to connect tail circuits to venues where trailers will be deployed.
- Assist in diagnosing customer local circuit issues to ensure the highest quality of service.

- Work with the Operations team to manage on site work for troubleshooting/replacement of equipment.
- Drives Company's truck-trailer to and between job sites/destination per client event schedule. Parks and powers unit at event locations. Ensures generator is fully fueled and the spare gas can is full.

**Qualifications/Skills:**

- Demonstrated familiarity with telecommunications, television concepts, infrastructure, provisioning (specifically HD-SDI circuits, SONET & Gigabit Ethernet).
- Experienced driving a truck-trailer combination and able to back and park trailers in tight confines. Excellent driving skills and clean Motor Vehicle Record.
- Valid and current driver's license is a requirement, including passing DOT Compliant Medical Physical and other Company required testing in pursuance with our Vehicle Safety Policy.
- Knowledge of Federal driver's logging requirements and use of logging programs, as well as adherence to the Company's Vehicle Safety Policy.
- Take ownership responsibility of the truck and trailer, to maintain meticulous appearance and operation of unit to The Switch's standards.
- Ability to develop and maintain long term working relationships with site personnel and provide a clear avenue for open communication.
- Familiarity with venue configurations and requirements of broadcasters using those venues.
- Proficient with telecommunication equipment installations and required facility maintenance work & repairs.
- Experience with facility telco wiring/cabling to specification and documentation and creating facility wiring diagrams/rack elevations.
- Networking and video troubleshooting experience is a plus.
- Excellent verbal and written communication skills.
- Strong attention to detail in all maintenance operations is required.

Our employees are our greatest asset. We offer a corporate culture that provides a personal challenge and rewards our employees for their successful efforts. We strive to provide our employees with a wide array of the industry's leading benefit packages and human resource services.

**Schedule and Compensation:**

- Full-time
- Comprehensive Benefits Package
- Salary based on experience
