The Switch is seeking an experienced NOC/MCR Operator to contribute to the growth and success of our Company. This position will be required to provide a consistent high level of service on assigned shifts as a part of a team that operates 24/7/365.

Primary Responsibilities:

- Diagnose customer local circuit issues to ensure highest quality of service.
- Customer interface for all video and data services.
- Place orders and route services as required for customers.
- Ability to troubleshoot audio/video/data problems on customer local and long distance circuits and correct issues. Follow proper troubleshooting reporting procedures with customer and company personnel. Monitor and troubleshoot traffic and services.
- Operation of all facilities remotely in multiple cities to ensure all services and activities are performed according to established Standard Operating Procedures.
- Assist customers in switching their local ports as well as long distance reservation when customers are unable to do so from their Control Panels.
- Initiate bookings when required with various outside carriers. Accurately document all information such as third party reservation numbers, PO numbers, and phone numbers.
- Manage reservation until all elements of the reservation are complete.
- Set up and execute live shots, voice-over feeds, studio backgrounds, props, monitors, and lighting in the studio.
- Operate robotic cameras, frame head shot, white balance the studio using CCU.
- Ensure the talent is fully accommodated and equipped by wiring them up with microphone and an interruptible feedback (IFB) earpiece.
- Adjust audio using the private line (PL) phone system and follow instructions from director.

- Create accurate documentation of customer issues and promptly escalate issues to the Supervisor or Manager, if necessary. Maintain and perform record keeping and timely processing of information.
- Provide ongoing support in monitoring as many services as possible to provide the highest quality of service.
- Answer incoming telephone calls courteously, energetically and in a timely manner from customers.
- Perform various other facility checks as assigned.
- Perform maintenance duties assigned by the Supervisor to ensure circuits are operating properly.

Required Skills:

- Bachelor's Degree in Broadcast or Computers, or Trade/Technical school and/or SBE Certification or equivalent experience is preferred.
- Excellent verbal and written communication skills.
- Outstanding attention to detail and ability to work quickly and efficiently in a fast-paced, ever-changing and challenging environment.
- Basic comprehension of analog, SDI, and HD signals as well as the ability to utilize the appropriate test equipment for circuit analysis.
- Well versed in Ethernet routing and protocols.
- Proficient with PC systems, Excel, Word and experience. Knowledge of ScheduALL preferred.
- Must be very organized, possess strong problem solving skills and ability to multi-task.
- Flexible and prepared to learn new skills, embrace and nurture a culture of change and positive attitude.
- Some prior broadcast TOC/NOC or equivalent computer video experience is preferred.
- Ability to work shifts that will include nights, weekends and holidays.

Schedule and Compensation:

- Full-Time
- Comprehensive Benefits Package
- Compensation based on experience
